Welcome to the Business IT Institute!

This is the faculty-maintained homepage for the Business IT Department at the IT University of Copenhagen. The department was created 1 January 2017 from the TIME and the TIP research groups. The department conducts research in many aspects of information systems and critical thinking, including process modelling, digital democracy, digital change, social innovation, IT security, as well as business and management. It is responsible for the IT University's education programs in DIM (Masters), GBI (Undergraduate) and ILM (Professional) but delivers curriculum also to other programmes such as SWU, DMD and Data Science.
